In the Hebrew Bible Chronicles was the last book in the OT - **בימיה ירבד** - Chronicles means 'Words of the Days'

1 & 2 Chronicles include and omit details when compared with 1 and 2 Kings. Just as the four Gospels give a different perspective so do these four books. For example, Chronicles does not mention David's sin with Bathsheba but it does mention his sin in numbering the people vet attributes it to Satan unlike the account in 2 Samuel 24.

Him that overcometh will I make a pillar in

the temple of my God, Rev. 3. 12

the good way, wherein they

Jotham should walk;

I was glad when they said unto me, Let us go into the house of the Lord

Psalm 122. 1

Archaeology

An Orthodox Jew praving at the Western wall, also known as the Wailing Wall because it is a place where Jews mourn the destruction and glory of the former temple which Herod built. The Western wall is the remaining part of the platform of Solomon's temple which Herod extended.

The Temple of Baalshamin in Palmyra was a first century 'sanctuary' dedicated to one of the key gods of the city. Note the pillars were supporting the front porch area. Solomon's temple also had two pillars but opinion is divided as to whether they were free standing or supporting but this archaeology may help us decide.
